Dr.-Ing. Aurore Fass

Tenure-Track Faculty at CISPA

✉ *fass@cispa.de*
aurore54f.github.io

Research Overview

My research work revolves around designing practical approaches to protect the security and privacy of Web users. I build systems to proactively detect malicious JavaScript code and suspicious browser extensions. I analyze data to understand how people spend time on the Web, and I want to use the resulting perspective to prioritize defense strategies.

Scientific Career

2023– **Tenure-Track Faculty**, *CISPA Helmholtz Center for Information Security*, Germany.

2021–2023 **Visiting Assistant Professor**, *Stanford University*, U.S.

- Host: Zakir Durumeric

2021 **Postdoctoral Researcher**, *CISPA Helmholtz Center for Information Security*, Germany.

2017–2021 **Ph.D. Student**, *Saarland University & CISPA Helmholtz Center for Information Security*, Germany.

- Ph.D. thesis: *Studying JavaScript Security Through Static Analysis*
- Advisors: Michael Backes and Ben Stock

Education

2014–2017 **Grande École** (similar to a Master Degree), *TELECOM Nancy*, France, valedictorian.
Major: Telecommunication, Network, and Security

- Master thesis: German Federal Office for Information Security (BSI), Germany
  Automated clustering of JS samples for the detection of malware contained in obfuscated code
- Industrial project: French Ministry of Defense, France
  Implemented an Xposed module to monitor Android devices; group of 4 persons (6 months)
- Internship: Fraunhofer IOSB, Germany
  Implemented a passive asset detection system (8 weeks)

2012–2014 **Preparation for the highly competitive nationwide entrance examination to the French Grandes Écoles**, France.
Major: Mathematics, Physics, and Computer Science

2012 **High school graduation**, France, graduated with distinction ("mention très bien"), European section.
Major: Mathematics, Physics & Chemistry, Biology, and German

Awards and Honors

2024 **Noteworthy Reviewer Recognition**, *EuroS&P*.

2023 **Top Reviewer Award**, *ACSAC*.

2023 **Top Reviewer Award**, *ACM CCS*.

2022 **Top Reviewer Award**, *ACM CCS*.

2022 **PC Member Honorable Mention**, *TheWebConf*.

2021 **Inspiring Career Recognition**, *1 of 3 invited alumni (out of 2,300 alumni) for the 30th anniversary of the French Grande École TELECOM Nancy*, Remote.

2019–2022 **Program of Excellence**, *Saarland University*, Germany.

2017 **Valedictorian**, *French Grande École TELECOM Nancy*, France.

2016 **Best Student Recognition Event**, *IBM*, UK.

Publications

Dominic Troppmann, **Aurore Fass**, and Cristian-Alexandru Staicu. Typed and Confused: Studying the Unexpected Dangers of Gradual Typing. In *IEEE/ACM International Conference on Automated Software Engineering (ASE)*, 2024. Code repository: `https://zenodo.org/records/13760256`.

Teaching

WS 2024–2025 **The Web Security Seminar**

SS 2024 **The Web Security Seminar**

WS 2023–2024 **The Web Security Seminar**
- Malicious JavaScript Analysis
- Beyond Malicious Extensions: How can Extensions put User Security & Privacy at Risk?
- User Browsing Behavior vs. Top Lists

WS 2020–2021 **Lecturer at TELECOM Nancy** (Université de Lorraine, France)
- Browser Extensions: Architecture and Security Consideration (lectures and practicals for MSc students)

WS 2019–2020 **Seminar: Joint Advances in Web Security**
- Browser Extensions: Security and Vulnerabilities
- Overview of Malicious JavaScript Detection Techniques and Attacks

WS 2018–2019 **Seminar: Joint Advances in Web Security**
- Overview of Malicious JavaScript Detection Techniques
- Cryptojacking: Definition, Detection, and Dimensions

Advising and Mentoring

Postdoctoral Researcher

Upcoming? **Dr. Ying Yuan** – *Analysis and Detection of Phishing Websites*

Ph.D. Students

Apr 2024– **Valentino Dalla Valle** – *Browser Extension Security* → *paper under submission*, Saarland University & CISPA

Dec 2023– **Dominic Troppmann** – *Type Checks* → *ASE 2024*, co-supervised with Cristian-Alexandru Staicu, Saarland University & CISPA

Research Assistant

Dec 2024– **Laith Alhelwane** (MSc student) – *JavaScript or Browser Extension Security*, Saarland University

Alumni

2023–2024 **Ben Rosenzweig** (BSc thesis) – *Machine Learning-Based Approach for Detecting Malicious Browser Extensions* → *paper under submission*, Saarland University

2022–2023 **Sheryl Hsu** (BSc student) – *Browser Extension Security* → *AsiaCCS 2024*, Stanford University

Manda Tran (MSc student → Ph.D. student UCLA) – *Browser Extension Security* → *AsiaCCS 2024*, Stanford University

Liz Izhikevich (Ph.D. student of Zakir Durumeric → Assistant Professor UCLA) – *Internet Scanning* → *IMC 2023*, Stanford University

2021–2023 **Shubham Agarwal** (Ph.D. student of Ben Stock) – *Browser Extension Security* → *CCS 2024*, Saarland University & CISPA

Kimberly Ruth (Ph.D. student of Zakir Durumeric) – *Web Browsing Behavior* → *IMC 2022*, Stanford University

2022 **Mark Tran** (BSc student) – *Browser Extension Fingerprinting*, Stanford University

Vrushank Gunjur (BSc student) – *Over-Privileged Extensions*, Stanford University

Nahum Maru (BSc student) – *Browser Extension Crawler*, Stanford University

Fengchen (Maggie) Gong (MSc student → Ph.D. student Princeton) – *Fingerprinting*, Stanford University

2021 **Liana Patel** (Ph.D. student of Zakir Durumeric) – *Crawler*, Stanford University

Luca Pistor & **Nathan Bhak** (BSc students) – *Exam Software Security*, Stanford University

Paul Szymanski (BSc thesis) – *A Study of State-of-the-Art Call Graph Creation Approaches for JavaScript*, with Cristian-Alexandru Staicu, Saarland University & CISPA

2020 **Anne Christin Deutschen** & **Luc Seyler** (BSc students) – *Browser Extension Vulnerability*, with Dolière Francis Somé, Saarland University & CISPA

2019–2020 **Marvin Moog** & **Markus Demmel** (BSc students) – *Analysis of JavaScript Obfuscation Techniques* → *DSN 2021*, Saarland University & CISPA

2019 **Maximilian Zöllner** & **Niklas Kempf** (BSc students) – *Intelligent Fuzzing System for JavaScript*, Saarland University & CISPA

2018 **Nils Glörfeld** (BSc student) – *Malicious JavaScript Deobfuscation*, Saarland University & CISPA

Dennis Salzmann (BSc student) – *Malicious JavaScript Detection*, Saarland University & CISPA

Invited Talks

Browser Extension (In)Security

Jun 2024 GDR Information Security. Rennes, France.

DoubleX: Statically Detecting Vulnerable Data Flows in Browser Extensions

Nov 2023 Workshop at INRIA. Paris, France.

Jul 2022 Berkeley Security Seminar. Berkeley, CA, U.S.

May 2022 RuhrSec. Bochum, Germany (extended version).

Apr 2022 Stanford Computer Forum – Security Workshop. Stanford, CA, U.S.

Nov 2021 Stanford Security Lunch. Stanford, CA, U.S.

Studying JavaScript Security Through Static Analysis

Apr 2024 PEPR Cyber – Project DefMal Webinar (France). Remote (extended version).

Mar 2022 Palo Alto Networks (CA, U.S.). Remote (extended version).

Jun 2021 Spirals Webinar at Inria Lille (France). Remote.

Statically Analyzing Malicious JavaScript in the Wild

Mar 2021 Webinar at LORIA (France). Remote.

Dec 2020 BINSEC Webinar at CEA (France). Remote.

HideNoSeek: Camouflaging Malicious JavaScript in Benign ASTs

May 2020 RuhrSec (Germany). Remote (extended version).
Mar 2019 Grande Region Security and Reliability Day (GRSRD). Nancy, France.
Feb 2019 MADWeb. San Diego, CA, U.S.

JaSt: Fully Syntactic Detection of Malicious (Obfuscated) JavaScript

Nov 2018 Blackhoodie. Berlin, Germany.
Jun 2018 Malware Meeting at LORIA. Nancy, France.
Mar 2018 Grande Region Security and Reliability Day (GRSRD). Saarbrücken, Germany.

Publicly Available Software

static-pdg-js Static analysis of JavaScript code (AST, control & data flows, pointer analysis)

DoubleX Static browser extension analyzer: detection of suspicious external data flows

HideNoSeek Static analyzer to detect syntactic clones in JavaScript inputs

JStap Static and modular malicious JavaScript detector

JaSt Static malicious JavaScript detector

reimpl-cujo Reimplementation of Cujo, static malicious JavaScript detector

reimpl-zozzle Reimplementation of Zozzle, static malicious JavaScript detector

Additional Skills – Languages

French Mother tongue

English Trilingual proficiency *TOEIC score: 910 (2014); lived in the U.S. 2021–2023*

German Trilingual proficiency *C1 Certificate (2016); lived in Germany 2017–2021 & 2023 onwards*
